

LUXURIOUS NEW RESORT NALADHU OPENS IN THE MALDIVES

Located in the aquatic setting of the Maldives, Naladhu offers a unique lifestyle to those who appreciate the sophistication and charm of times past. Naladhu has captured the elegant aesthetics of a slightly colonial era, with hints of Sri Lankan regality in its design. However, the resort also offers every modern convenience imaginable to the luxury traveler.

Naladhu means "pretty little island" and each of the exclusive 19 ocean houses – each named after a Maldivian plant – are situated on a private island ringed by coral gardens and marine life. Each dwelling features generous living, dining, and bedroom spaces. A personal plunge pool, landscaped garden and vast teak sundeck make for an exotic experience within the privacy of the enclosure.

Bungalows each have a terrazzo bath tub as well as an open-faced shower which allows for a view from within but remains hidden to anyone outside the house enclosure. Each Naladhu house contains an espresso machine, a fridge stocked with delicacies such as foie gras and vintage cheese, and a wine cellar pre-stocked according to personal preferences. Wireless technology is available in every room and the audio equipment comprises of Bose products. At the foot of the bed is a flat screen TV.

Naladhu's personalized "House Master" professional butler service can arrange outdoor activities, with adventures around the spectacular landscape of the Maldives, or an experience defined by the luxurious facilities available within the house confines.

Guests have the choice of dining under the stars in their house Sala, or in the comfort of the Living Room restaurant. Meals can also be served aboard a local dhoni (Maldivian boat) or on the Wave Breaker dining platform over the ocean. Guests can also enjoy an exclusive in-house spa treatment or take in the colors of the Maldives with the aid of the resort's PADI dive team.
