YOUR STAY!

WELCOME

We are delighted that you chose to spend your holiday with us at Naladhu Private Island. Dining at Naladhu has always been an elegant affair, and now it is even more indulgent. With our no-menu concept, guests are invited to design their own menu for every meal. Evening barbecues are more relaxed, yet fiery and flair. The team is excited to help you create everlasting memories and ensure you enjoy all that the island has to offer. Swim in the crystal-clear lagoon. Snorkel with nurse sharks. Dine on a nearby sandbank or on a floating platform in the middle of the sea. Allow us to tailor-create your once-in-a-lifetime escape. We wish you a wonderful stay in our private sanctuary. Should you need any assistance, please do not hesitate to reach out to me directly.

We wish you a wonderful stay in our resort.

MEET... OUR CULTURAL GURU, SHUAIB IBRAHIM!

Originally from Hdh. Nolvivaran, Shuaib grew up in a family of musicians. With his father being a pioneer of music on the island, he was always surrounded by music and art. My father often plays Boduberu at home and at gatherings and that is how I fell in love with traditional music. Every time I watched him play the Boduberu, I got this adrenaline rush. The feeling is hard to explain, but I am sure any Maldivian can relate to what I am saying!" shares Shuaib.

Following in his father's footsteps, a passion that ignited as a hobby quickly turned into something more. Shuaib participated in the second season of the Voice of the Maldives, where he competed against some of the top singers in the Maldives and placed in the top six. It is my biggest accomplishment so far, and I take great pride in it, said Shuaib with the biggest smile.

With tourism being a crucial part of the Maldivian economy, Shuaib started his career in the hospitality industry 11 years ago. He started as a housekeeping attendant at Anantara Dhigu where he met Javid, the legendary Cultural Guru, whom this unique position was inspired by. Javid's inspiration, paired with his love for music, Shuaib decided to embark on his journey as the Cultural Guru at Naladhu Private Island.

IN THE WORDS OF...

Serenity, privacy and lush greenery are just the beginning of what one could experience during their stay at Naladhu Private Island. But what else would make your stay on the island one to remember? Here are some insider tips from our Kuwaanus,

“There’s no better place to go diving than in the Maldives. Even for first timers, it’s the best place to take the first leap – or in this case, dive. The marine life here is simply stunning and it’s easy to get hooked on this newly found passion. From black tip sharks (*don’t worry, they’re friendly*) to a kaleidoscope of fishes, there’s so much to see on your journey to find Nemo!” – **Ibrahim a.k.a. Ibbe**

“Have you tried having breakfast at night? As funny as that sounds, at The Living Room, you can! We really mean it when we say you can have breakfast all day. The Living Room has a ‘no menu’ concept and our guests can preorder anything they feel like for the day. If you’re having a hard time deciding what to have, fret not! A special menu is always there to give you a kickstart.” – **Eugeniia**

“Being a Kuwaanu at Naladhu Private Island is a wonderful experience for anyone who has the passion for the job. And I think this passion translates into our guests’ experience as they can expect the warm smiles the moment they step off the boat. Not to carry my own basket, but as a Kuwaanu, we often go the distance to ensure our guests leave the island with amazing stories to tell from one of their most unforgettable vacations. From an Instagrammable floating breakfast to family dinner overlooking the stunning sunset (*and everything in between*), we are always a dial away to help craft those special moments.” – **Ameen**

“There’s no better place to experience the ultimate privacy than in Naladhu Private Island. Surrounded by lush greenery of a natural island, it’s easy to get lost in the serenity that envelopes the resort. As much as it is a great place for a private getaway for guests, it is also a beautiful environment to be working in. Not only that I am able to have a picturesque view from the office, I also have the freedom to get creative, personalizing the service for each guest based on their preference.” – **Majda**

“Here at Naladhu Private island, we are like one big family, and this includes our guests. The relationship that we have with our guests is beyond just a butler – it’s a bond that continues on even after they’ve departed. I’ve had guests sending me messages to ask about my daughter back home and it’s really a warm feeling.” – **Aslam**

“What are memories without some stunning photos to show off? In Naladhu and its surrounding islands, there are many spots that are great for photos or to simply enjoy the moment. In the middle of the island sits a swing that would take you back to your childhood. Hidden in a corner as you walk past house number one towards Baan Huraa, is my favourite spot to watch the sunrise. I can spend the morning sitting in the swinging chair just watching the sun come up while enjoying the calming sounds of the sea. Do you have a favourite spot on the island so far?” – **Sulvaan**

SPA AND WELLNESS

YOUR GUIDE TO THE ULTIMATE REVIVING VACATION

For most of us, massages are usually the go-to solution for maximum relaxation when on vacation. But the growth in lifestyle disorders these days calls for a deeper understanding of one's needs to address the root cause and heal the mind, body and soul. Here are some tips on how you can spice up your wellness journey:

THE AYURVEDIC PATH

One of the oldest practices which holds a pearl of ancient wisdom and ayurveda treats the whole body system, healing from the root of the issue. It mainly believes that there are three elements in the body named vata, kapha and pita, and imbalance in these doshas results in various problems and diseases. Therefore, ayurvedic treatments and therapies focus on bringing balance to the doshas, bringing additional relief to those who engage in heavy exercise and activities.

One of the more popular Ayurvedic treatment is Pinda Swedhana, a therapeutic treatment which involves applying warm herbal poultices to the body to open the energy channels. With the application of this herbal press, medicinal herbs absorb into the underlying tissues, improving blood circulation and repairing neuromuscular conditions to ease joint pain and leave the body feeling revitalised.

FACIAL ESSENTIALS

One thing you would gift to yourself as someone who values self-care is a facial. Going beyond external beauty, facials these days promote the wellbeing of your skin against acne and discoloration caused by air pollution, especially when combined with a daily skin care regime and good nutritional diet.

Treatments like the high-performance Signature Restorative Facial at Balance Wellness by Anantara is formulated with powerful antioxidants to neutralize free radical damage, and to repair irritated skin. The facial also targets skin issues such as dehydration, sensitivity and rosacea. Start with a thorough cleansing using Diamond Microdermabrasion, application of highly effective products with NAC Y2 active ingredients to accelerate the skin's healing, visibly reduce fine lines and brighten the skin.

RETAIL CORNER

Apart from the exotic spa treatments, we highly recommend to follow a skincare routine in order to be healthy on a longer, please visit us at Overwater Spa Dhigu Retail Store. We feature 111 Skin products and Anantara Products.

FLOAT LIKE A BUTTERFLY, STING LIKE A BEE

One of the oldest combat sports in the world, boxing, is an efficient yet fun way to workout. With guidance from a certified trainer, you'll be guided through a combination of cardio warmup, dynamic mobility, boxing technique and pad work, and of course, full body conditioning. All in all, this equates to a great way to tone and strengthen the body.

At Anantara Maldives, our boxing coach, Borch, specialises in advanced boxing and functional fitness training for toning and general health. Gloved with a competitive sporting background across many disciplines, including boxing, basketball, table tennis and chess, he incorporates elements of each into his training methodology for the most effective workout, both for the mind and the body. Feel free to consult with him about physical training whether your goals are for toning, strengthening, or simply learning new exercises. Available for single individual, couple's and kids.

WELLNESS CONSULTANT AND HOLISTIC NUTRITIONIST

Pranathi Bollapragada

*Master's in Nutrition, Certified in
Behavior Changing Skills Coach*

Pranathi is a wellness consultant and a Holistic Nutritionist, she finds her immense pleasure and fulfilment in helping people lead healthier and happier lives. She believes in integration; hence she found a balance of integrating modern clinical approach with strong principles of ancient wisdom of Ayurveda and Holistic Nutrition, she is an advocate of diet that are balanced and nourishing rather than restrictive. Over the years she has developed a magnificent hands-on experience to cater the individual needs according to their physical, psychological factors.

With massively growing health issues that are solely due to the outcome of poor lifestyle habits and choices, studies are constantly computed to find practical ways which can be implemented to enhance the overall wellbeing of individuals.

Due to the drastic decrease in naturally grown local and organic foods, most foods are being harvested and grown by using pesticides and chemicals, which can be deadly with prolonged consumption. It also compromises the digestive track, accumulating toxins and reducing the absorption of nutrition in foods.

Every individual requires certain protein, energy, carbohydrates, fats, vitamins, and minerals. This is calculated based on one's bodily needs, activity levels, health status, occupation, and goals – known as the “Recommended Dietary Allowance” (RDA). Most times, it is challenging to meet the RDA, hence supplements are recommended to make up for the nutrients needed.

Our resident nutritionist, Pranathi, shares her insights on ways to incorporate balanced nutrition habits. Here are her recommendations:

VITAMIN C

Vitamin C is the most important vitamin one must aim to meet on daily basis. It has several important functions, including helping to protect cells and keep them healthy and supporting healthy skin, blood vessels, bones, and cartilage.

It is highly recommended to combine certain foods in order to enhance the vitamin C absorption to the body, a squeeze of lemon juice into lentil soup, bell pepper sticks with hummus extra tomatoes and bell peppers mixed into black bean chili.

The greatest food sources of vitamin C include lemon, lime, orange, tomato, kiwi and berries like strawberries and blueberries.

VITAMIN E

Vitamin E is a powerful antioxidant and is one of the best summer supplements for skin care. It has several important functions, but primarily, Vitamin E protects skin from the harmful effects of the sun. It can also help with faster recovery from sunburn, which is crucial when travelling to sunnier climates.

The body can absorb vitamin E more effectively when consumed alongside some fat, like salad dressing, avocado, cheese, or nut butter. Good sources of vitamin E include sunflower seeds, corn, soybean and nuts like peanuts, hazelnuts, and almonds.

COENZYME Q10

A substance that helps convert food into energy, Coenzyme Q10 (CoQ10) is a powerful antioxidant found in almost every cell in the body, motivating energy production and powers biochemical reactions. Antioxidants fight damaging particles in the body known as free radicals, which damage cell membranes, tamper with DNA, and even cause cell death.

A powerful antioxidant, CoQ10 protects your brain, heart and muscles and has anti-inflammatory properties. There are a few food sources that are naturally abundant in Coq10 which include organ meat, fatty fish, legumes, broccoli, oranges and peanuts.

CELL WELLBEING EPIGENETIC TEST

The nutritionist here runs through a detailed consultation and Cell Wellbeing Epigenetic Test, which allows one to witness the genetic data through a bio profiler, which provides information about your body's levels of nutrients, vitamins, minerals, essential amino acids, fatty acids, antioxidants, and contaminants. Discover which daily nutritional and environmental factors are impacting your body's cells.

HOME REMEDY

100% Edible Sugar Scrub

A long week at work calls for a weekend in, and we have just the perfect remedy for a relaxing spa-tuesday. How does a blend of fresh fruits peel and aromatic coffee in the morning shower sound? Here's a homemade concoction you can try as your morning ritual:

Mix...

- 1 cup of sugar (*refine granules*)
- ½ cup of coconut oil (*organic if possible*)
- 2 tbsp of dried fruit peels (*pineapple, lemon and orange – all naturally sun-dried and finely grounded*)
- 1 tbsp of grounded coffee (*reused, sun-dried*)

With a generous amount of sugar scrub, start from the bottom of your legs towards the upper body, gently massaging in a circular motion from right to left. If you are taking bath, soak in with the scrub on for at least 15 minutes for the maximum effect. Remember, don't use any soap when rinsing and gently towel dry to keep the glow and the lovely scent to last for the whole day.

Make this your weekly ritual and you'll feel renewed with softer looking skin as it affectively removes dead skin cells.

TIP!

Brushing your body with a dry body brush before jumping into the shower helps remove toxins from your body. To enhance the result of the scrub, try this before applying the sugar scrub to your body.

AQUAFANATICS

DOLPHIN SNORKELLING

Go for an exhilarating swim in Dolphin Lagoon. A unique place in the Maldives where Spinner Dolphins go for mating and socialising. At times in this season there can be hundreds of dolphins at the same time. However, they are wild animals and therefore their presence is not guaranteed, though this is the best season to swim with them. Ability to swim is required as they are fast moving animals. Trip duration: 2 hours

Adult: USD 205 / Child: USD 155 (3 – 11 years old)

WHALE SHARK SNORKELLING

Join us on our amazing full-day trip to snorkel with whale shark in Ari Atoll. The trip starts at 7.00 am and it takes approximately 1.5 hours to arrive at Ari Atoll. Once there, it is just a matter of time until the adrenaline kicks in as we prepare to jump into the water when a whale shark is spotted. The chances of seeing whale sharks in the area (even though we cannot guarantee it) are very high as it is one of the places where they do not migrate from. The snorkelling area is easy to navigate and whale sharks are very gentle, they come close to the surface. If it's your lucky day, you might spot dolphins, mantas and turtles along the way!

Trip duration: 6 to 8 hours

Adult: USD 495 / Child: USD 370 (3 – 11 years old)

BIG GAME FISHING

Hop on to our modern-day dhoni that runs approximately 12 to 14 knots, taking only 10 minutes to get to the fishing ground from the resort. The fishing takes place in the open sea, but never far from the outer reef, because predatory fishes come to hunt near the reefs. Hence, the chances to catch a wahoo, sailfish, trevally etc. is quite good.

Half Day (4 hours): USD 1,400 / Full Day (8 hours): USD 2,050

JETSURF

Jet across the lagoon on our electric surfboat. A unique and fun experience in our amazing lagoon.

20 mins: USD 205

TROPICSURF

Ideally located in the heart of South Male's surf scene, Anantara Dhigu Maldives is a few minutes away from a variety of breaks, which cater to all surfing levels and abilities from peeling, playful rights to down-the-line left barrels. The peak surf season is from April to October, when the winds are from the west and the swell is from the southeast. From November to March, we organise trips to North Male Atoll where waves are stronger, however, swell is less consistent.

For those wanting to stretch their legs a little further afield, we offer half day trips to the famous North Male' breaks too. During the off season from November to March, we can still find some good waves at Honkey's which offers shelter from the prevailing North East winds at this time. These trips are a 5 hour round trip, which includes three hours of surfing time and a transit time of one hour each way via speedboat.

TropicSurf operates exclusively from Anantara Dhigu and offers expert guidance, water safety and coaching tips. One of the advantages of surfing from our resorts is the wide range of experiences on offer, which cater to any level, from beginners to advanced surfers. For first-timers, our surf gurus will teach you the basics of surfing within the safety of the lagoon. This flat water lagoon session is offered all year round and is for first time learners, both young and old before moving into learning in the waves. In the lagoon session we teach, ocean awareness, safety, board control, and the take off technical in the waveless calm waters of the lagoon.

Within a 10 minute boat ride from the resort we have a dreamy beginner wave named "Henrys", perfect for those looking to catch their first wave.

Additionally to surfing, TropicSurf has stand-up paddleboards for rental allowing guests to paddle around the crystal clear lagoon granting great views of the sea life underneath. Whether it be sunrise, during the day or sunset it is a great way too unwind and take in the beauty of Anantara Dhigu/Veli.

TURTLE TALES

The Maldivian archipelago is home to five of the seven species of sea turtles: green (*Chelonia Mydas*), hawksbill (*Eretmochelys Imbricata*), loggerhead (*Caretta Caretta*), olive ridley (*Lepidochelys Olivacea*), and leatherback (*Dermochelys Coriacea*).

Green and hawksbill sea turtles are the most commonly sighted sea turtles, known for nesting nationwide.

SEA TURTLES ARE WHAT THEY EAT!

Green sea turtles are unique among sea turtles. During the first few years of their lives, they are omnivorous, but when they reach the adult phase, they become primarily herbivores, eating mostly seagrass and algae. This diet is what gives their cartilage and fat – surprisingly not their shells – a greenish colour, which is where their name comes from.

SEA TURTLES SPEND ALL THEIR LIVES IN THE WATER

However, female sea turtles will come to the land to lay eggs. The group of eggs is called a clutch. They usually lay between 60 to 120 eggs per nest and will nest multiple times, each about two weeks apart, over several months. It takes roughly 2 months for the eggs to hatch and as soon as they hatch, the hatchlings dig out of their nest. This process generally takes a few days. Once they emerge, the tiny turtles hurry to the sea and make their way offshore into the open ocean. Baby sea turtles face many threats, but those that survive to become adults will live for decades.

SAND TEMPERATURE MATTERS

The gender of sea turtles, like that of many other turtles, is determined by the temperature in the nest. Cooler incubation temperatures produce male hatchlings, and warmer incubation temperatures produce female hatchlings. Temperatures that fluctuate between the two extremes will produce a mix of male and female hatchlings.

SEA TURTLES DON'T RETRACT INTO THEIR SHELLS

Unlike other turtles, sea turtles cannot retract their flippers and head into their shells. Their streamlined shells and large paddle-shaped flippers make them very agile and graceful swimmers. In the water, their rear flippers are used as rudders for steering.

REMEMBER!

Upon spotting these fascinating creatures, it's very important to keep in mind that they are endangered, and we need to be respectful and responsible. Here's what you should do:

- Move slowly in the water with minimal splashing and refrain from talking where possible (*especially when diving!*), although you may feel like shouting for joy at seeing a turtle, you don't want to scare it away.
- Leave a clear path for the turtle to get to the surface for their next breath. Never swim directly above the turtle.
- Keep your distance and approach calmly from the side. Your encounter will be much longer if the turtle is not frightened.
- Never chase or attempt to touch turtles.

CITIZEN SCIENTIST PROGRAMME IN COLLABORATION WITH THE OLIVE RIDLEY PROJECT

DID YOU KNOW, THAT THE PATTERNS OF SCALES ON A TURTLE'S FACE ARE AS UNIQUE AS FINGERPRINTS ARE TO HUMANS?

Photo-ID is a non-invasive technique used to identify individual turtles in a population and track them over time. It allows scientists to study the population structure, distribution, habitat use, and migration patterns of all sea turtle species.

At Naladhu Private Island Maldives, we collaborate with the Olive Ridley Project (ORP) through a photo-ID programme. Every time we go snorkelling or diving, we collect the photo ID of sea turtles and send it to ORP for identification.

Guests are also welcomed to help and become citizen scientists. To contribute to our ID programme, we need the following images: Left and right profile, top view. The pictures can be sent to omigliaccio@anantara.com.

After the ID process is completed, a special code and a nickname of your choice will be assigned to the sea turtle, and if there is any other sighting of that specific turtle, you be notified by email.

KIDS ACTIVITIES

At Anantara Dhigu, families and the little VIP's are invited to engage with the destination through our kids activities.

Our kids program is built around the young adventurers and features a daily program of activities including sports, arts and crafts, cooking classes, and more. The experience is based out of Dhoni Kids Club, an exciting indoor-outdoor playspace with a climbing wall, a treehouse, and two Dhoni boats packed with fun.

SUSTAINABILITY

LOVE OUR REEF? HELP US PROTECT IT.

Immersing guests in the spirit of giving back, Naladhu invites you to donate USD 1 per night stay in the Dollars for Deeds programme. The resort will match guests' donations dollar for dollar during their stay to raise funds to support Coral Reef CPR by protecting our flourishing reefs, reducing our impact on the environment and promoting sustainability.
